OBJECTIVES

Basic principles of credential evaluation

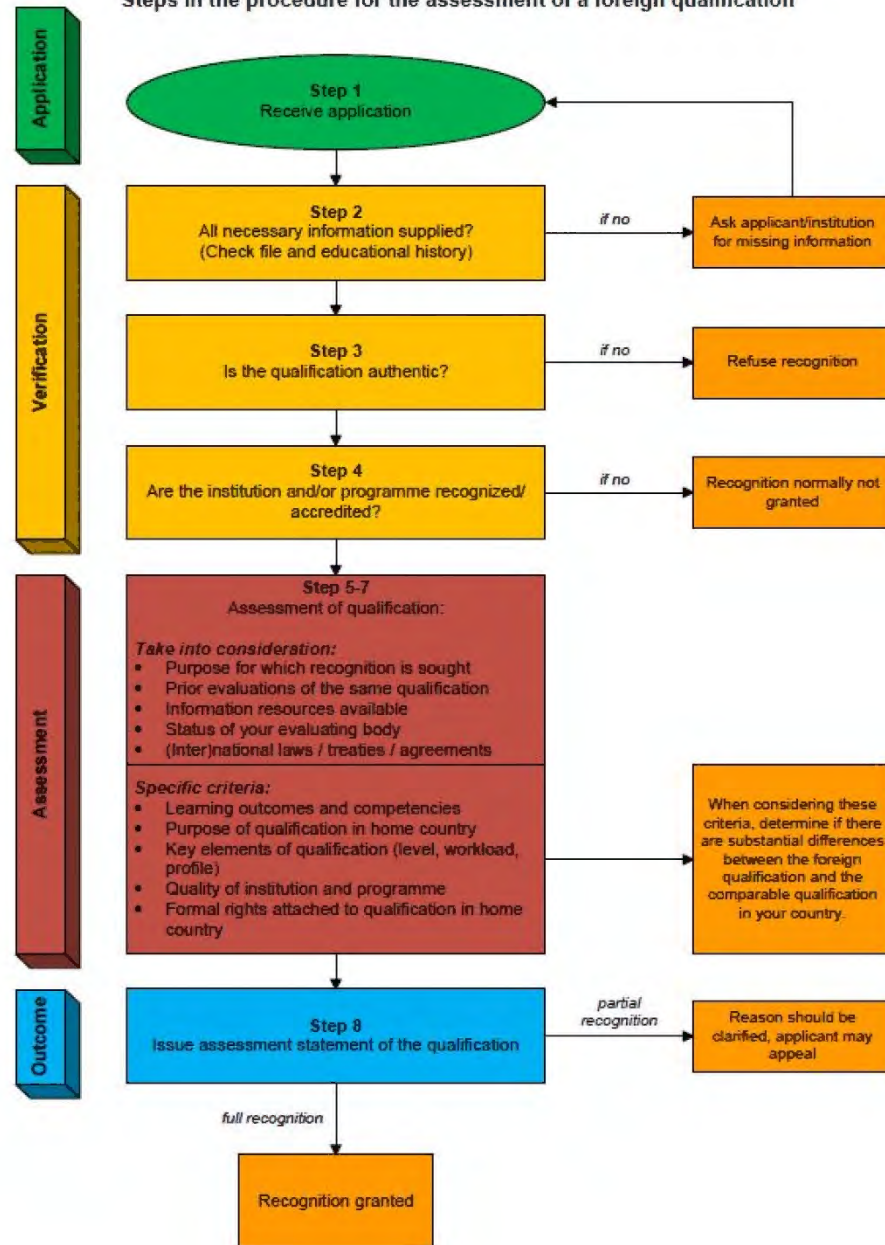

Recognition & accreditation

Major characteristics of educational systems

Grading & credit conversion

COMPARATIVE EDUCATION

Steps in the procedure for the assessment of a foreign qualification

Multiple sources, multiple purposes

- Further education, employment, licensure, immigration, military enlistment

Level, scope & intent

- How we arrive to credential equivalencies

Basis of comparative education

- Fulltime study in country of study is equivalent to fulltime study in receiving country
- Qualitative assessment
- Equivalency vs admissibility

The droplets have highlights and shadows, giving them a three-dimensional appearance. The largest droplets are in the top-left and bottom-right corners, while smaller ones are scattered throughout.

RECOGNITION & ACCREDITATION

DEFINITIONS

Accreditation *a system of quality control carried out by bodies which may or may not be independent of the national government & which may or may not be a voluntary process; following an assessment procedure involving self-evaluation & peer review, recommendations for improvement are made and accreditation (i.e. a stamp of approval), is granted or denied*

Recognition *an official status granted to an institution (and the qualifications it awards) by national legislation*

QUESTIONS & DISCUSSIONS

WHY IS ACCREDITATION / RECOGNITION IMPORTANT?

AS LONG AS THE SCHOOL IS A RECOGNIZED INSTITUTION, I SHOULD BE ABLE TO
ACCEPT THE CREDENTIALS FOR ADMISSION, RIGHT?

DEVELOPING EXPERTISE

- Which are accredited: Institutions or Programs, or both?
- Is there a standard way of indicating the accredited status of an institution in the documentation issued by the degree granting authority?
- Where can further information be found on accreditation and quality assurance in the country in question?
- Is a list of accredited or recognized institutions available from an official source?
- What is the terminology used in the country in question with regards to accreditation (i.e., accredited, recognized, chartered)?
- What is the name of the authority responsible for accreditation?
- Can you verify the status of the accrediting body to be sure it is official?
- Is education governed by national legislation, and if so, what are the relevant laws?

ISSUES IN ACCREDITATION & RECOGNITION

- INSTITUTIONAL QUALIFICATIONS
- UNACCREDITED UNDERGRADUATE DEGREE FOLLOWED BY ACCREDITED GRADUATE DEGREE
- NON-LEGITIMATE ACCREDITATION

DEFINITION

Official Educational Credential

An official educational credential is one issued by an individual in an official capacity or entity that has jurisdictional authority over the issuance of documentation on behalf of an institution.

Legitimate institutions issue credentials on the basis of bona fide academic study – they are also recognized by ‘real’ accrediting or recognition bodies.

PHOTOCOPIES

Pros

Easy & Fast

Option for institutions not requiring original documents at decision phase

Eliminates liability for returning documents

Least prohibitive for applicants

Cons

May open up questions of authenticity & manipulation

May be difficult to ascertain alterations on document

May not represent most current record

BUILDING A CASE & BEST PRACTICES

- Collect all information relative to the applicant's case
 - Ask for explanations for missing documents
 - Request photocopies of missing documents
 - Check the applicant's story with known events
 - Ensure applicant's stated timeline matches with documents
 - Determine whether documents can be reissued by the proper authorities
 - Consider exceptions to documentation requirements when extenuating circumstances are present
-
- Establish institution-specific best practices based on the needs of your institution
 - Use all documentation methods holistically, but be consistent on a country-specific basis
 - Understand the common practices in the country of origin
 - Give the applicant some leeway, but understand what is possible & determine the rigidity of institutional policies

The page features several realistic water droplets of various sizes in the corners. In the top-left, there are several droplets of different sizes, some overlapping. In the top-right, there are a few smaller droplets. In the bottom-right, there is a cluster of droplets, including a large one and several smaller ones. In the bottom-center, there are a few more droplets of varying sizes.

SYSTEMS OF EDUCATION

SYSTEMS OF EDUCATION

Humboldt System of Education

- Secondary education
 - University preparatory track preparing students for research-oriented university education
- Higher education
 - Binary system with a strict distinction between academic, university education & professional higher education
 - Research activities conducted during initial studies
 - Scientific research conducted free of societal interests

SYSTEMS OF EDUCATION

Credit-based system

- Courses are weighted by credit value
- Canada, China, the Philippines, Taiwan, United States

Hours-based system

- Value for each course is based on the total number of hours
- Russia, Ukraine

Marks-based system

- Value for each course based on maximum possible marks/grade
- India, Nepal, Pakistan

Outcome-based system

- Equal value for all courses
- Commonwealth Countries, United Kingdom

SECONDARY EDUCATION CREDENTIALS

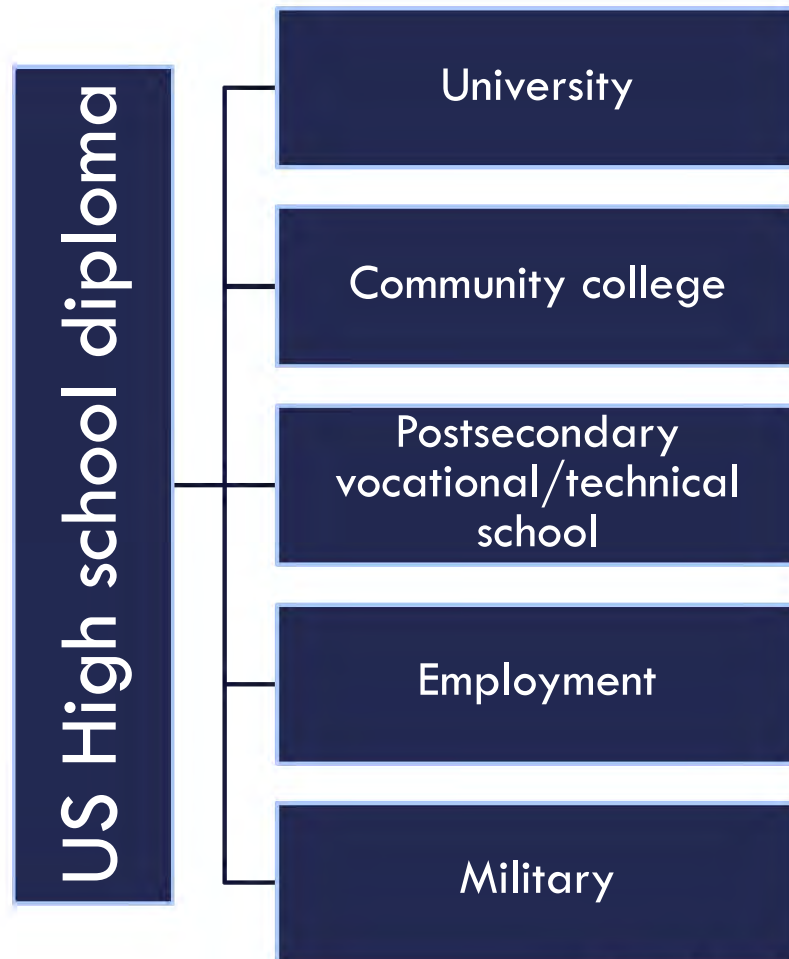

CHARACTERISTICS OF SECONDARY EDUCATION

- Secondary school is a phase of education that builds on 6+ years of primary education
- Usually compulsory until the age of 16
- Depending on the country, may be referred to by different names: gymnasium, junior/senior high school, college
- Prepares students for various types of further, vocational and/or higher education and/or employment
- Duration: between 4 -6 years

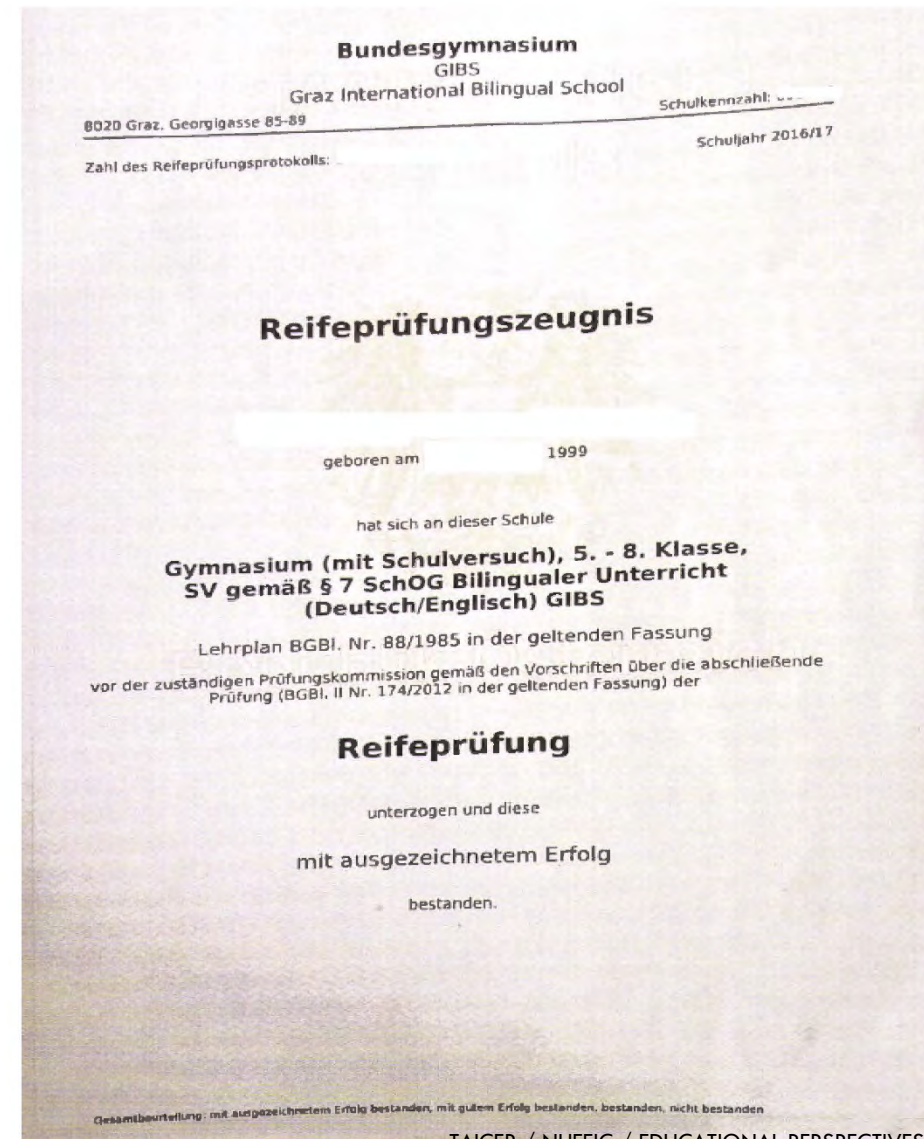

EVALUATING SECONDARY EDUCATION

EVALUATING SECONDARY EDUCATION

WHICH COUNTRY? WHAT'S THE DIFFERENCE BETWEEN THE TWO?

The page features a white background with several realistic water droplets of various sizes scattered in the corners. The droplets have highlights and shadows, giving them a three-dimensional appearance. The largest droplets are in the top-left and bottom-right corners, while smaller ones are scattered throughout.

POST-SECONDARY EDUCATION CREDENTIALS

CHARACTERISTICS OF POST-SECONDARY EDUCATION

- Type of program that requires completion of secondary education for admission
 - Includes technical or vocational programs that do not lead to a degree
 - In other countries, postsecondary education may refer to undergraduate/graduate programs offered by HEIs leading to a degree
- Higher education may be organized by:
 - Binary system (professional programs offered by one type of institution, research-oriented programs offered by another type of institution)
 - Unitary system, where both types of educational programs are offered by the same institution
- In most countries, higher education is offered in 3 phases, though the structure and content of these phases may vary widely

TYPES OF POST-SECONDARY EDUCATION CREDENTIALS

Certificates/diplomas

Intermediate
qualifications

First degrees

Second/advanced
degrees

IN WHICH COUNTRY WERE THESE DOCUMENTS ISSUED?
CAN YOU EXPLAIN THE DIFFERENCE BETWEEN THE TWO?

METHODOLOGY & CONVERSION

Defining Course Weight

- 1 year fulltime = 1 year fulltime
- Contact hours in class vs overall study load
- Secondary units vs Postsecondary units
 - Carnegie units
 - Conversion factor
 - Credit-; hours-; marks-; outcome-based system

Course Grades/Marks

- Relative vs Absolute
- Use of descriptors
 - Excellent, Good, Pass/Satisfactory
- Grade of 'D'
- Grade of Failure
- Use of classification
 - 1st class, 2nd class, 3rd class

METHODOLOGY & CONVERSION

The collection and maintenance of this information are authorized under the Education Act, R.S.O., 1990, c. E.2, s. 266. Users of this information are supervisory officers and the principal and teachers of the school. This is the official record of the student's educational history. The contact person regarding the collection of this information is the principal of the school.

The Ontario Student Transcript (OST) is the official record of a student's academic achievement in the province of Ontario. The OST contains a record of the following:

- all courses in all secondary school grades successfully completed before September 1, 1999
- all Grade 9 and 10 courses begun and successfully completed during or after the 1999–2000 school year
- all successful and unsuccessful attempts at completing Grade 11 and 12 courses and Ontario Academic Courses (OACs) made during or after the 1999–2000 school year

“Course Code” column

The *first three characters* of the course codes are those given in the ministry's list of common course codes.

The *fourth character* indicates the grade of a course, as follows: 1 (Grade 9), 2 (Grade 10), 3 (Grade 11), 4 (Grade 12), and 0 (OAC). For courses in ESL, classical/international languages, and Native languages only, it indicates the level of a course, as follows: A (Level 1), B (Level 2), C (Level 3), D (Level 4), and E (Level 5).

The *fifth character* indicates the type of course, as follows: D (academic), P (applied), O (open), U (university preparation), M (university/college preparation), C (college preparation), E (workplace preparation), T (college-delivered dual credit), Y (college-delivered apprenticeship dual credit), and Z (university-delivered dual credit). Transfer courses are indicated as follows: H (academic), J (applied), K (university preparation), V (university/college preparation), Q or R (college preparation), and S (workplace preparation). Locally developed courses are indicated as follows: 1 (academic), 2 (applied), 3 (open), 4 (board-developed compulsory Grade 9 or 10 English, math, science, Canadian history, or French as a second language), L (compulsory Grade 9 or 10 English, math, science, or Canadian history approved by the ministry), 5 (workplace preparation), 6 (college preparation), 7 (university preparation), and 8 (university/college preparation).

For students who began secondary school between 1984–85 and 1999–2000, the fifth character indicates the level of difficulty of a course, as follows: A (advanced), B (basic), and G (general) for courses based on ministry curriculum guidelines; and X (advanced), Y (basic), and Z (general) for non-guideline courses.

Course codes beginning with “K” indicate courses consisting of alternative expectations, which do not lead to credits. These codes are structured somewhat differently: the fourth character indicates the year of attendance in secondary school (A for the first year, B for the second, etc.); and the fifth character, N, indicates a non-credit course.

Course codes ending with “4T”, “4Y”, or “4Z” indicate dual credit courses. Credits for these courses are granted according to standards developed by the college or university involved.

QEV is the code for credits received in the Grade 9 program from 1993–94 to 1998–99 (a total of 8 credits, including the compulsory credits).

PLE is the code for equivalent credits granted as one total for the following:

- previous learning through home schooling in Ontario, at a non-inspected private school in Ontario, or at a school outside Ontario
- previous learning in Grades 9 and 10 for *mature students* who entered or re-entered the Ontario secondary school system on *February 1, 2004, or later*

The codes indicating credits granted to *mature students* who entered or re-entered secondary school *before February 1, 2004*, are as follows: **QEE** (equivalent-education credit), **QAP** (apprenticeship-training credit), **QMA** (maturity-allowance credit), and **QSE** (credit for course work completed outside Ontario).

“Percentage Grade” column

EQV is used instead of a percentage grade when equivalent credits are recorded.

ALT may be used instead of a percentage grade for alternative courses, which do not lead to credits.

“Credit” column

1.00 indicates one credit for the successful completion of a course scheduled for a minimum of 110 hours. Partial credits are indicated as **0.50** (a half credit), **0.25** (one-quarter credit), etc.

0 (zero) indicates that the student failed the course

W indicates that the student withdrew from the course

R indicates that the student repeated the course and that the percentage grade given for this attempt is the lower grade

N/A indicates a course with modified or alternative expectations that did not lead to a credit

“Note” column

The following notations may appear in this column:

S special indicator noting that the student's performance in a Grade 11 or 12 course or an OAC was affected by extraordinary circumstances

I interdisciplinary studies

F course taught in French in a Core, Extended, or Immersion program

C cooperative education

X substitution for a compulsory credit course

H a required Specialist High Skills Major course

T a team-taught dual credit course

P credit earned at an inspected private school by a student registered in a publicly funded school

M modified curriculum expectations that do not lead to a credit

A alternative expectations, which do not lead to a credit
