Education System - Iraq

- Brief history
- The system – from Madrasa to University
- Changes in the Education System
- State/Public Universities
- New Private Universities
- Quality Assurance
- Documents from Different Universities

Son, go to school, stand in front of the "school-father", memorize your homework, open your school bag. Write your own tablet instead of using your brothers tablets. After you finish your homework and showed it to your supervisor come home, straight, without distraction.

Son, if you see previous generations, You will see the benefits of going to school. Look at them, search for them.

You are driving around day and night. You swim in wealth, you have grown up in length and crosswise,. You are fat.

And, finally son, when you get your degree don't forget to take with you your original tablet to Sweden to be evaluated.....

Education Policy

- Education is supervised by two Ministries:
The Ministry of Education and MoHESR
- Access to Higher Education is based on the result of secondary diploma (baccalaureate)
- School Education, 12 years, (9+3)

- Three streams/main fields

1. Scientific,
2. Literature/humanities
3. Vocational

The outcome is "Baccalaureate" Diploma.

Post secondary Edu is divided in two fields

- Vocational >< Academic

- Primary school teachers, Library arts, Surveying, Automotive, welding and cutting etc.

- The Vocational, 2 years, most practical/applied, in many different fields/branches, ending with Technical Diploma

Is provided by Foundation of Technical Education, FTE, (former FTI) through Technical Institutes <http://www.fte.edu.iq/index.php>

Technical Institutes are supervised by FTE, Governmental body, under the MHSR.

In some cases, Technical Diploma, give access to 3:rd year Bachelor at University, in the same field.
