National External Quality Assurance Requirements

■ Institutional evaluations/accreditation

are valid for five years. During the evaluation procedure, about 20 per cent of the study programmes offered by the institution are also evaluated. Before initiating an institutional accreditation higher education institutions need to apply for provisional authorisation.

■ Evaluation of Master Study Domains

The evaluation procedure is to be fully applied for the first time in 2018.

■ Programme evaluation/accreditations

are valid for five years and must be renewed regularly. Programmes first need to receive a provisional accreditation that is granted by the Ministry for a period of two years and then apply for an accreditation.
